

The Commonwealth of Massachusetts

ANNUAL REPORT

OF THE

LICENSING BOARD

FOR THE

CITY OF BOSTON

FOR THE

YEAR ENDING NOVEMBER 30

1961

4-24-64

ANNUAL REPORT

OF THE

LICENSING BOARD FOR THE CITY OF BOSTON

December 1, 1961.

To His Excellency JOHN A. VOLPE, Governor of the Commonwealth of Massachusetts.

SIR.

In compliance with Section 5, Chapter 291, Acts of 1906, the Licensing Board for the City of Boston has the honor to submit the following report of the activities of this department for the year ending November 30, 1961.

The personnel of the Board is as follows.

John J. Callahan, Chairman  
Timothy F. Tobin, Member  
Clarence R. Elam, Member  
Edwin J. Thomas, Executive Secretary  
David O'Connor, Confidential Secretary

There are eleven civil service employees who make up the remaining members of the administrative staff.

The office of the Board is located at 24 Province Street, Boston, eighth floor, where all business of the Board is transacted.

In addition to the issuing and regulating of Alcoholic Beverages licenses of various types, more fully described within this report, the Board issues and regulates the following types of licenses:

Innholder  
Common Victualer  
Club Common Victualer  
Lodginghouse  
Fruit, Ice Cream, Soda Water or Confectionery  
Soft Drinks  
Billiard, Pool, and Bowling Alleys  
Intelligence Offices (Employment Agencies)  
Picnic Groves  
Automatic Amusement Devices  
Entertainment

Approximately 10,000 licenses are issued and regulated by this board.

m R  
336.27M31:2  
B741: m41r  
1961  
A

The Licensing Board for the City of Boston has no authority to issue new all alcoholic licenses due to quota restrictions imposed on it in 1937, therefore, any all alcoholic license that is revoked, cancelled, or otherwise forfeited cannot be re-issued to new applicants.

Perhaps the most complex problem that constantly confronts the board is the relocation of existing alcoholic beverage licenses when requested. Urban Renewal, in this report, eminent domain takings for other purposes, expirations of lease agreements, destruction of premises by fire or other causes, movements for competitive advantage, and exorbitant rental increases by lessors are the more popular reasons for applications for transfer.

Invariably, such transfer requests are met with vigorous opposition by the combined forces of the community, clergy, elected officials and competitive interests within the new proposed location. Further limitations are placed upon the mobility of holders of such licenses by statute prohibiting any transfers within 500 feet of a school or a church.

Nevertheless, the board is obligated to exercise cautiously its discretion in balancing the interests of opposing parties by constantly attempting to distinguish between well founded objections and deep seated emotional prejudices towards the dispensing of alcoholic beverages; between the legitimacy and the illegitimacy of competitive opposition; between real and imagined fears of property devaluations, and between reasonable demand and no demand for such beverages.

Whenever the occasion presents itself, as it has on several instances, distressed licenses have been transferred into less congested areas where new business developments or enterprises have appeared, such as new motels, shopping centers and recreational centers. The board in so doing, has insisted upon proper safeguards to prevent undue influences upon minors, as well as the maintenance of physical standards of such licensed establishments in keeping with the new business development or enterprise. In this latter connection, the board feels justly proud of the fact that the vast majority of transfers approved have reflected much better physical plants than those which existed at their former locations. Transferred licenses to these new business locations have been a potent factor in new construction in Boston amounting to several millions of dollars, thus helping to broaden the narrow tax base resulting in increased tax revenue.

The Intelligence Office (Employment Agencies) licenses while relatively few in number, present to the board unique problems

between those furnished employment by the agency and the agency, which often escapes any public notice. The Board, nevertheless, on frequent occasions, receives complaints from such persons referred to employment by certain agencies involving disputes as to proper charges for the services rendered. The licensee and the complainant are invited to a conference with the board which sits as mediators and attempts to resolve their differences amicably. By and large such agencies accept the recommendations of the board for more equitable fee charges when the Board is convinced that despite contractual agreements, fees were deemed to be excessive.

The increase in the need for more housing facilities for students attending the various specialized schools and colleges in Boston has led to more utilization of Lodginghouse licenses, particularly in the Back Bay area, which has caused a growing concern on the part of residents there due primarily to noise and other acts of misconduct on the part of young students away from home. This indicated a lack of adequate control and need for special legislative attention. In this connection, conferences with civic groups interested and Legislators in that area have been held which has resulted in filing of necessary corrective legislation which if passed will provide for the creation of a special type of student lodginghouse license and mandatory controls accompanying such licenses.

The Boston Licensing Board has constantly demonstrated that despite the fact that it is not directly under the City Administration, it will be second to no department directly under the control of the city insofar as cooperation with the city is concerned. The Chairman, or a member in his absence, attends all the meetings of department heads called by the Mayor, and attends budgetary meetings of the City Council. It participates fully in all city sponsored charitable causes.

Notwithstanding broad statutory powers granted to this board relative to expenditures, it has steadfastly maintained compliance with the budgetary limits placed upon it by the Mayor and City Council.

In an attempt to assist the Mayor in his magnificent effort to reduce city expenditures and in increasing the revenue of the city without further imposition of additional taxes on home owners, the Board, authorized by statute, voted to increase license fees on the following classes of alcoholic licenses, which will amount to an increase in revenue to the City of Boston of \$200,000.

## LIST OF LICENSES — FEE INCREASED

	Present Fee	Proposed Fee
Common Victualer 7-Day All Alcoholic . .	\$1,400	\$1,600
Common Victualer 6-Day All Alcoholic . .	1,150	1,350
Common Victualer 7-Day Wines and Malt .	700	800
Common Victualer 6-Day Wines and Malt .	550	650
Common Victualer 7-Day Malt . . .	600	700
Common Victualer 6-Day Malt . . .	475	575
Club—All Alcoholic . . . . .	1,200	1,500
Club—Wines and Malt . . . . .	400	550
Club—Malt . . . . .	300	400
Retail Package—All Alcoholic . . . . .	1,300	1,500
Retail Package—Wines and Malt . . . .	600	800
Retail Package—Malt . . . . .	300	500

The above increases were felt justified on the basis of increased cost of administering such licenses since the last such fee adjustment.

The board has cooperated further in the administration of the conduct of licensed establishments by acting promptly upon any complaints received by the Mayor's Office.

In order to reflect the increase in cost of administering certain other licenses issued by this board, the board will seek to remove the statutory fee limitation upon certain licenses, by filing legislation to increase fee maximums of Retail Druggist Licenses, Innholder's License (with Alcoholic Beverages) and Tavern Licenses.

The efficient administering of the Licenses issued by this Board could not be possible without close cooperation of other agencies of the City and State which are discussed as follows:

## BOSTON POLICE DEPARTMENT

The General laws creating the Licensing Board for the City of Boston and the Boston Police Department, requires a close working relationship. The Board consists of an Administrative staff only and relies primarily upon the Boston Police Department to investigate licensed establishments and refer to this Board, any violations of law or regulations of this Board. The Board at these public hearings sits in a quasi-judicial manner and weighs the evidence

brought by the police and the defenses presented by the licensee, usually through legal counsel. Direct and cross-examinations are permitted as well as closing arguments, after which, the board imposes penalties, if it feels that charges have been adequately sustained.

In addition to the above stated functions of the Police Department with respect to licenses, they have the additional responsibility of investigating applicants for all licenses issued by this board, reporting on proposed transfer locations and making personal inspections of all establishments holding alcoholic beverage licenses before they are annually renewed. In this connection a licensing officer in each police division is assigned by the captain to comply with this Board requirement.

The Board continues to enjoy close cooperation with the police with regard to the above stated duties.

#### HEALTH DEPARTMENT OF THE CITY OF BOSTON

The Health Department, by the very nature of its work, is seriously concerned as we are, with the sanitary conditions and the manner in which food is prepared and handled in restaurants, cafes, etc., which the Board licenses; therefore, whenever an inspector finds a condition in a licensed premise which is a menace to health, the Board is immediately notified and the license is immediately suspended until the condition complained of is remedied. In addition, no common victualer license or lodging house license is granted by the Board without an approved health report.

#### BUILDING DEPARTMENT OF THE CITY OF BOSTON

The Building Department of the City of Boston is concerned with proper egress in any premise occupied by a licensee, also with capacity limits and any structural defects which may constitute a menace through fire, overcrowding, or other possible disaster; therefore, the Board does not issue any license without the licensee having first obtained a Building Certificate, and, in the event of any alteration, without a clearance from the Building Department. Likewise, if a Building Inspector finds any serious defect in the premises of a licensee, and the Board is notified, the license is immediately suspended until the condition is corrected.

### DISTRICT ATTORNEY (SUFFOLK COUNTY)

Occasionally, information comes to the attention of the District Attorney, Mr. Garrett Byrne, relative to licensed establishments, which require tedious undercover investigations. During the period of this report, like in past years, his agency has investigated and prosecuted certain licensed establishments. At his request, the Board granted him hearings and in all such cases, the thoroughness and professional presentment of evidence of serious violations of law, have led to complete revocation of licenses by this board.

### ARMED FORCES DISCIPLINARY CONTROL BOARD

This military agency is concerned primarily with the health and moral welfare of military personnel under its jurisdiction. In pursuing their objectives, the problems concerning licensed premises often come under close scrutiny. A representative of this Board generally attends the monthly meetings of the Control Board, where a variety of moral problems affecting servicemen are discussed.

Licensees who have patronage from servicemen are instructed fully to cooperate with the armed service police and afford their investigators the same privileges as are extended our law enforcement agencies.

Complaints of violations involving licensees and servicemen are brought before this Board by Armed Service Police in the same manner as other policing agencies, and if charges are substantiated, punitive action is taken.

### STATE DEPARTMENT OF CORPORATIONS AND TAXATION

Through the close cooperation between officials of this State Agency and the Licensing Board, corporations holding licenses issued by this Board who have not met their obligations to the state with respect to meal taxes and filing statements of conditions were persuaded to comply or face loss of their licenses. The response to our prodding netted the Commonwealth \$350,000 in badly needed additional revenue. Contents of letter to Chairman from this agency reads as follows:

DEAR MR. CHAIRMAN:

During the calendar year 1961 the Department of Corporations and Taxation conducted an analytical survey of various industries in Massachusetts subject to the requirements to file corporation excise returns pursuant to Chapter 63 of the General Laws.

A most important part of the survey required the full cooperation of the Boston Licensing Board in order for it to be successful.

The several meetings which the staff of the Tax Department had with you and your Board and other personnel resulted in the completion of the project in a manner which far exceeded original expectations.

That your judgment and decision to participate in this program was most beneficial from the financial viewpoint of the City of Boston is evidenced by the fact that over \$350,000 in additional revenues has already been collected by this Department, and as the program continues to expand in 1962 an even greater return is expected.

On behalf of the Department of Corporations and Taxation may I extend to you and your Department sincere thanks for the development of this cooperative program, which resulted in such worthwhile public benefit.

Very truly yours,

Signed, GUY J. RIZZOTTO,  
*Commissioner of Corporations and Taxation.*

In addition to above mentioned agencies and departments, the Licensing Board has cooperated with Federal Agents, Internal Revenue Agents, the Attorney General with respect to information they desire in the course of their investigations. On occasions, the Alcoholic Beverage Control Commission refers complaints to this Board which their investigators find in Boston for our disposition.

The Licensing Board is constantly aware of the growing problems that the Urban Renewal program and other new developments will have upon the relocation of holders of Alcoholic Beverage Licenses. While the full effect of these programs will not be realized until the various authorities order the licensee to quit the premise, or cease doing business at their present locations, the Board is giving serious thought and conscientious study as to what steps shall be taken to minimize the effect upon the areas affected. To be sure, no easy solution will be apparent inasmuch as the problem involved repre-

sents community hostility, financial losses in the industry, economic factors resulting from loss of employment, competitive resistance, and militant clerical protestations. The Board will continue to stand ready to cooperate with all agencies who have an interest in these problems.

The Board wishes to express its appreciation to all co-ordinating agencies and to its own staff for complete co-operation throughout the license year.

Respectfully submitted,

JOHN J. CALLAHAN, *Chairman.*

TIMOTHY F. TOBIN, *Member.*

CLARENCE R. ELAM, *Member.*
